Flag

The flag of Virginia contains the state seal in a field of blue. It was first used in the 1830s but not officially adopted until 1930.

Seal

The great seal of Virginia is circular. In the center is a figure of Virtus, the goddess of virtue, dressed as a warrior. She holds a spear in her right hand, with its point held downward touching the earth. In her left hand is a sheathed sword pointing upward. Her left foot rests on the chest of the figure of tyranny, who is lying on the ground. Above the figure is the word "Virginia," and under the figures is the

Official State Emblems con't

state motto "Sic Semper Tyrannis" or "Thus Always to Tyrants." The seal, designed by George Wythe, a signer of the Declaration of Independence, was first adopted in 1776 and modified in 1930.

History

What is the Commonwealth of Virginia?

You will often hear our state called the Commonwealth of Virginia. This does not mean Virginia has a different form of government than any other state. "Commonwealth" is defined by Webster's New Collegiate Dictionary as a political unit or government (1) "founded on law and united by compact or tacit agreement of the people for the common good," or (2) "one in which supreme authority is vested in the people." Using these definitions, it could be said that all 50 states, as well as our national government, are commonwealths. Besides Virginia, three other states - Kentucky, Massachusetts and Pennsylvania - use the term commonwealth as part of their official names.

The first use of commonwealth in Virginia was early in its history. One reason given by Governor Sir George Yeardley for authorizing the first General Assembly meeting at Jamestown in 1619 was "for the better establishing of a commonwealth here."

From 1649 to 1660, England and Virginia did not have a king. Instead, the Puritans ruled under a Lord Protector, Oliver Cromwell. The government was called the Commonwealth of England. This commonwealth ended when King Charles II reclaimed the throne in 1660.

In colonial times, Virginia was officially known as the Colony and Dominion of Virginia. When the 13 colonies broke ties with the British Crown during the

Revolution, the old name was no longer suitable. The delegates to the convention in Williamsburg, when the first Constitution of Virginia was adopted on June 29, 1776, used commonwealth as the name for the new form of government. It is very likely they had in mind the Puritans' rebellion against the Crown in England over 100 years earlier.

Pennsylvania and Massachusetts also chose to be called commonwealths after independence from Great Britain. The other 10 former colonies took the name "state," the term used in the Declaration of Independence.

Kentucky was once part of Virginia. When Kentuckians joined the Union as the 15th state in 1792, it kept the name commonwealth.

There are several other uses of the word "commonwealth" in the world today

The Commonwealth of Puerto Rico is not a state, but a territory. In this case, commonwealth refers to the free association with the United States chosen by the Puerto Rican people.

The Commonwealth of Nations is a voluntary association of Great Britain and about 50 countries that were once part of the British Empire. Some of these nations, including Australia, Canada, New Zealand, the Bahamas, Jamaica and other Caribbean islands, still recognize the British monarch as their official head of state.

After the breakup of the Soviet Union, Russia and other former Soviet republics formed the Commonwealth of Independent States, a loose alliance set up to handle certain matters of mutual interest among these newly independent countries.

HOW A BILL BECOMES A LAW IN VIRGINIA

The following steps depict the normal procedures where a non-controversial bill becomes a law. Bills may originate in either house of the General Assembly. By custom, the general budget bill is introduced in the House.

1. A delegate (as requested by constituents) prepares legislation permitting localities to prohibit the sale and use of certain fireworks.
2. The delegate explains exactly the proposal he has in mind to a staff attorney in the Division of Legislative Services. The attorney checks existing law and the constitutionality of the proposed legislation.
3. A bill is drafted by the Division of Legislative Services.
4. Copies of the bill are delivered to the delegate.
5. The delegate signs his name on the bill, and introduces it by laying the original and a duplicate copy on the desk of the Clerk of the House of Delegates.
6. The bill is ordered printed and referred to the Committee on Counties, Cities and Towns.
7. The members of the Committee on Counties, Cities and Towns - in public session - familiarize themselves with the bill and decide to approve it without amendments.
8. The Committee reports the bill to the House.

9. First reading: the bill title is printed on the calendar or is read by the Clerk, and the bill advances to second reading.
10. Second reading: The next day the bill appears on the printed calendar on second reading. Bills are read in the order they appear on the calendar. The Clerk reads the title of the bill a second time.
11. A bill on second reading is amendable. The bill is explained by its patron who answers any questions that may be asked. By voice vote the house votes to advance the bill to third reading.
12. A bill that has passed second reading with or without amendments is "engrossed." Any amendments are inserted in the proper place, and the bill is then in the final form for passage.
13. The next day, the engrossed bill title appears on the House calendar on Third Reading. The bill is read by title a third time by the Clerk of the House of Delegates. By recorded roll call vote the bill is passed by the House of Delegates.
14. Communication: When passed, the bill is sent to the Senate either by the Clerk in a communication or by a member in person, informing the Senate that the bill has passed the House and requesting the concurrence of the Senate.
15. In the Senate: The bill goes through the same procedure in the House. The bill is read by title a first time, referred to a committee, considered and reported by the committee, read a second and a third time before passage by a majority.
16. After the bill has been passed by both houses of the General Assembly it is printed as an enrolled bill, examined, and signed by the presiding officer of each house.
17. Then the bill is sent to the Governor for approval.
18. The bill is then sent to the Clerk of the House (The Keeper of the Rolls of the State) to file for convenient reference.
19. Bills enacted at a regular session (or the reconvened session which follows) are effective on July 1 following adjournment of the regular session, unless another date is specified. Bills enacted at a special session (or the reconvened session which follows) are effective the 1st day of the 4th month following the adjournment of the special session, unless another date is specified. The General Appropriation Act is usually effective July 1. Emergency Acts are effective when signed by the Governor.
